designed to reduce service time while improving longevity.

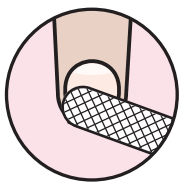

## HOW TO APPLY

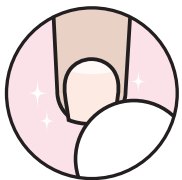

**Step 1:** File and shape the free edge.

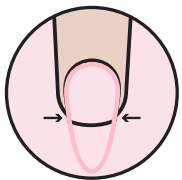

**Step 2:** Push back cuticles; remove non-living tissue; nip hangnails only.

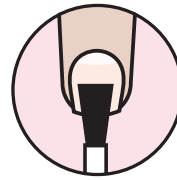

**Step 3:** Lightly etch nail surface with 180-grit (one pass per area).

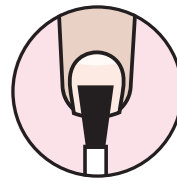

**Step 4:** Cleanse with acetone or sanitising spray and remove dust

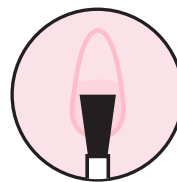

**Step 5:** Size Dream Cover Tips sidewall-to-sidewall.

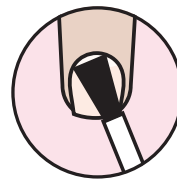

**Step 6:** Dehydrate the natural nail.

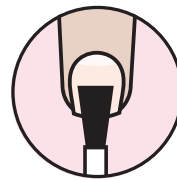

**Step 7:** Apply acid-free primer to the nail.

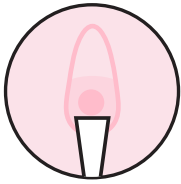

**Step 8:** Prime inside the tip's etched area.

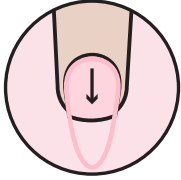

**Step 9:** Scrub on thin HEMA-Free Base Coat; cure 60s.

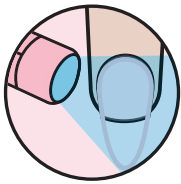

**Step 10:** Apply second thin base layer (do not cure).

**Step 11:** Add small bead of base inside the tip

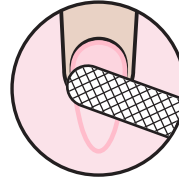

**Step 12:** Apply tip at 45° with no air pockets.

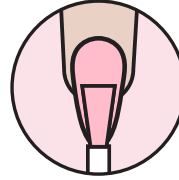

**Step 13:** Flash-cure while holding

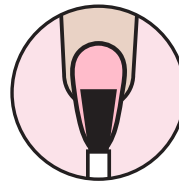

**Step 14:** Fully cure 60s

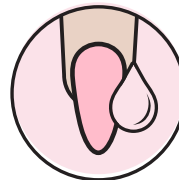

**Step 15:** Lightly buff the tip surface.

**Step 16:** Apply 2 coats gel polish, curing each 60s.

**Step 17:** Apply No-Wipe Top Coat; cure 60s; cleanse.

**Step 18:** Finish with cuticle oil.

## TOP TIPS

**1 PERFECT FIT & ALIGNMENT:**  
Tip should fit sidewall to sidewall and align naturally with the nail apex, never force it.

**3 USE MINIMAL PRODUCT & AVOID SKIN:**  
A small amount of gel prevents flooding, lifting, and skin contact.

**2 APPLY SMOOTHLY & STEADILY:**  
Use gentle, even pressure to avoid air bubbles and hold still during flash cure.

**4 CURE & FINISH PROPERLY:**  
Fully cure with the correct lamp, lightly refine, seal the free edge, and finish with cuticle oil.
